Skills

I have a strong grasp of front-end web development, specializing in:

HTML, CSS, JavaScript

React.js

Responsive Design

UI/UX Principles

Git Version Control

Bootstrap, Material-UI

Performance Optimization

Cross-Browser Compatibility

Creative Problem-Solving

Effective Communication

My focus is on delivering user-friendly, visually appealing, and optimized front-end solutions.

.

Experience

Software Developer / A leading Financial Technology Firm.

Lagos city.

My passion for coding and front-end development has driven me to continuously learn and improve my skills. I have dedicated countless hours to self-study, personal projects, and online courses, honing my abilities in HTML, CSS, JavaScript, and React. My determination, coupled with my strong problem-solving skills and eagerness to contribute, make me a dedicated candidate ready to excel in a Software Developer role. I am excited to bring my enthusiasm and fresh perspective to a dynamic team and learn from experienced professionals in the field.

Education

YabaTech college / Bachelor of Science

My degree in Computer Science at YabaTech College, I gained a solid foundation in programming concepts and software development. The comprehensive curriculum provided me with a deep understanding of algorithms, data structures, and coding practices. Through various projects and coursework, I developed strong analytical and problem-solving skills, which I am eager to apply in a real-world setting. My academic journey has fueled my passion for software engineering and equipped me with the knowledge and determination to excel in the field.
